# netcare

WE KEEP THINGS SUPER SIMPLE.

If you're tired of talking to I.T. people you can't understand, it's time to have a straight-forward conversation with Netcare.

THE NETCARE DIFFERENCE

WE'RE TECH GUYS WHO SPEAK PLAIN ENGLISH.

Don't know your cloud from your wireless connection? No need to fear! At Netcare we pride ourselves on being able to explain technology concepts in words that anyone will understand. And because 'you get' what we're talking about – you'll avoid getting a system or service that you didn't need or want in the first place.

WE CAN MAKE YOUR BUSINESS MORE EFFICIENT.

Understanding I.T. concepts is one thing – applying them to real life business operations is a whole different skillset. At Netcare, we offer 20+ years on the ground experience – getting inside companies and tailoring technology solutions that help drive efficiencies – aka bottom line results.

WE RESPOND LIKE YOU'RE OUR ONLY CLIENT.

When you sign up with Netcare, you'll receive the kind of personal service that happens when you know every client by name. We're not a big corporate, so rest assured, you won't be treated like a number - you'll be a company that we bend over backwards for week-in week-out.

BUSINESSES WHO TRUST US

Real Living

BYRON MEDICAL

PALAZZO Kitchens & Appliances

CORE SERVICES:

SERVERS

How we deliver resources, data, services or programs.
Cloud-based, hybrid and traditional servers all have their own strengths – our first job is to assess your business needs and determine which option will work best for you.

CYBER SECURITY

Essential defence against cyber-attacks.
We make sure your data is protected and operating systems are secure with solutions that provide reliable defence against ransomware, viruses and malware attacks.

BACKUP SYSTEMS

Safeguard your valuable information.
Every company is at risk from hackers, data loss and server failure. The key is making sure you're covered when things go wrong, with tailored hardware and online backup.

NETWORKS

How we connect your computers together.
We'll help you choose the right network solution or internet connection to match your business size and operations. Internet, wired or wireless connections, we do it all.

PHONE SYSTEMS

Some companies still need a landline!
Frustrated with the service you get from big phone companies? We install, manage and support a wide range of market-leading phone systems and can help you select one that fits your business.

EMAIL PROTECTION

Don't let destructive emails slip through your system.
A rogue email can cripple productivity, cause costly damages and compromise your systems and data security. We have solutions to stop that from happening.

SUPPORT WHEN YOU NEED IT

We understand I.T. issues need to be solved ASAP. So we provide remote support that allows our tech team to jump on your device and get you back up and running in a jiffy.

YES, WE ALSO PROVIDE…

- Dedicated After-Hours Support
- Dedicated Account Manager
- Flexible Pricing Packages
- Day-and-Night Systems Monitoring
- Automated Patch Management
- Remote Screen Support
- Monthly System Health Reports
